

KRISHNA GARG

☎ +91-9518007871 ✉ krishnagarg0918@gmail.com 🔗 LinkedIn 📍 Greater Noida, Uttar Pradesh

Career Objective

Computer Science Engineering student skilled in Java, SQL, and Machine Learning. Seeking a Software Engineer role to apply technical skills, build real-world solutions, and grow through hands-on experience with modern tools and frameworks.

Education

Galgotias University

Bachelor of Technology (B.Tech) – Computer Science and Engineering

- CGPA: **8.05**

Greater Noida, Uttar Pradesh

Sept 2023 – June 2027

Hingiri Public School

Senior Secondary Education (Class XII)

- Percentage: **74%**

Panipat, Haryana

2023

Hingiri Public School

Secondary Education (Class X)

- Percentage: **93%**

Panipat, Haryana

2021

Technical Skills

Programming Languages: Java

Web Technologies: HTML, CSS

Databases: MySQL

Tools & Frameworks: Git, Scikit-learn

Soft Skills: Problem Solving, Teamwork, Communication

Projects

Sonar Rock vs Mine Prediction | *Python, MySQL, Scikit-learn*

Feb 2026 – March 2026

- Built a machine learning model to classify underwater objects as Rock or Mine using sonar signal data.
- Performed data preprocessing and feature analysis on a dataset containing 60 sonar signal attributes.
- Implemented Logistic Regression using Python and Scikit-learn for binary classification.
- Split dataset into training and testing sets and evaluated model performance using accuracy metrics.

Morse Code Converter | *Java*

July 2025

- Developed a Java-based application to convert English text into Morse code and decode Morse code back to text.
- Implemented efficient character-to-Morse and Morse-to-character mapping using HashMap data structure.
- Handled user input and string processing to ensure accurate and reliable conversions.
- Applied object-oriented programming (OOP) principles to design a modular and maintainable system.

Internship

Java Developer Intern

July 2025 – Sept 2025

- Developed a Morse Code Converter application using Java to translate English text into Morse code and vice versa.
- Implemented string processing and mapping techniques using data structures such as HashMap for efficient character-to-Morse conversion.
- Applied object-oriented programming (OOP) concepts in Java to organize and structure the application.

Achievements

DSA Problem Solving: Solved 500+ DSA problems across multiple competitive programming platforms.

Oracle Certified: SQL Programming.
